**Category:** Industry

**Workshop Title:** Empowering Recovery: Advanced Integrated FES and Neuromodulation with RT300 and Xcite2

**Organizer(s):** April K. Luby

**Speaker(s):** Gabriella Stiefbold

Jessie Huschart

Crystal Harvey

Laurie Magerfleisch

Stephanie Huber

Colleen Connaughton

**Workshop Time:** 10:30 – 12:00

**Attendee Engagement:** We are planning to have current patients and clinical experts in addition to our expert staff that are local to conference to join us to display multiple activities and new options available to clinicians! We will engage participants throughout to create a truly interactive environment with updated research for best practices!

**Abstract:** Join Restorative Therapies for an engaging 90-minute interactive workshop highlighting advanced applications of integrated Functional Electrical Stimulation (FES) and neuromodulation in rehabilitation. Designed for clinicians and rehabilitation professionals, this session emphasizes evidence-based methodologies and practical strategies using the RT300 and Xcite2 Therapy Systems to optimize patient outcomes.

The workshop will feature live demonstrations of best practices, showcasing tailored treatment protocols for various neurological conditions. Attendees will participate in hands-on activities, exploring how these cutting-edge systems seamlessly integrate into rehabilitation settings to enhance motor recovery, functional independence, and quality of life.

With a focus on research-backed innovations and practical implementation, this session provides actionable insights to elevate clinical practice.

Don't miss this opportunity to engage with industry experts, deepen your expertise, and discover the transformative potential of integrated FES and neuromodulation technologies.
